 For the New Year

duce with a time-honored custom, the NEW YORK PUBLIC LIBRARY, the largest library weekly in the world, the celebration of a New Year event in the form of a literary prospectus, presented to the "Admirers of the world's literature" in the last year of the 19th century. The New York Municipal Library and State of Genoa, as well as with the addition of mature years. Presenting as entrance to the realm of literature—a rich and extensive material—of the greatest importance in the world—glittering with the brilliant memory of the sharp, best pens of the time—

garmenting himself in the robes of native eroding with ethnographic details and the perfume of the great waters of his institutional freedom, and honored all of the other perfect freedom from anything of the kind or impulse the most sensitive national people—it has been for years the luxury, the monitor, and the welcome guest of thousands of American homes, scholars and proprietors of *The New York Times* have made the motto of its editors: "All young Genius wing his eagle flight, and drops sheathing from his plumes of the present year (1867) the grand, the of writers—whose united salaries exceed

of those paid to the Profit and Loss of the United States—and its brilliant set of literary specialities will be naturally. Thus, one of the proprietors' new edition of the witty, waggish, quizzical, and undervalued, and pungent.

Our Wooded Home. Dr. R. R. Shaw sent a letter acknowledging the receipt of the money sent from this place to the suffering in Kansas. The letter has been mislaid.

That portion of the road leading to the Third Ward, at the south end of the lower Ravine bridge, should be repaired at the earliest convenient date. In the winter the water runs over the road and renders it actually hazardous to drive on, and in the spring and fall the mud is so plenty that one is in danger of being swallowed up. The expense of securing a ditch that would turn the water into the Ravine, would be trifling.

We stepped into Cronkhit's Hall one day this week for the purpose of seeing and examining some superior oil-paintings executed by our townsman, H. F. Patton. The paintings are life-like, and reflect much credit on the artistic skill of Mr. P. He has for a long time been engaged in the business in New York city, where he ranked among the most successful Artists. Being one of our most industrious citizens he should be liberally patronized. Call and examine the specimens for yourselves.

The water in the river is now at the highest stage we remember of seeing for some years past, and is still coming up slowly. Last Sunday it broke through the breakwater on the south end of the small bridge, crossing the branch forming the Island, doing no damage, however. The wing dam of Messrs. Ballard, throws the water to the south side, and if a strong south-east wind should come up suddenly, forcing the water from Lake Winnebago into the river in unusual quantity, we should not be at all surprised to see a large breach on the flat over the river.

By invitation of the gentlemanly Agent for Grover & Baker's Sewing Machines Mr. Powers, who has been in town a few days, we called at Mr. R. d. Clothing Store, where was on exhibition two specimens of this celebrated machine. After a thorough examination of the work ing and getting, and specimens of work done by this machine, we are prepared to say that it is not inferior to any now in use. The gearing is less liable to get out of repair, and runs much more quietly than any we have seen.

The advertising of this company alone, amounts to \$125,000 per year.

The machine that has been sold formerly for \$75 is now sold for \$60; the one for \$65, \$50; the one for \$80, \$70; the one for \$100, \$80. Had we not a good Sewing Machine, we should secure one of Grover & Baker's at once.

The New Pashonian Letter Paper.—Our readers have already been informed that the Postmaster General has issued orders for a supply of letter paper to be cut, gummed, and embossed, with a three-cent postage stamp, combining in one both paper and envelope. According to the Washington correspondent of the New York World, a sheet of this new style of letter paper will be about half the size of the old-fashioned letter paper, and folded out as to furnish a neat and convenient prepared letter of only about half the weight of those now in use with an envelope. Orders have also been sent for similar sheets, letter size.

The use of envelopes has often been objected to by legal gentlemen, as the postage stamp is often the only conclusive evidence of the time when a letter may have been mailed. There can be little doubt that the new system will almost entirely supersede the old, so far as business letters are concerned.

From John C. Ryan.

We publish the following extracts from a private letter to his sister in this place: It will be seen that his anticipations of success in that land of "lightning deep tions" are still of the sanguine kind. His plan, in pursuing the gold phantom under the difficulties which he has to encounter, is truly admirable, and deserves.

Denver, March 24th, 1861.

Dear Mattie: Yours of the 2d inst. came to hand yesterday. I was very much gratified to hear from you and home, with its surroundings.

* * * To night everything is still and quiet about the city. As I sit here at the desk, in the "Rocky Mountain News" sanctum, naught disturbs the stillness of the evening, save the familiar sound of the clatter-going bell, or the occasional bark of some watchful house dog. One almost imagines himself in a civilized community, where naught but peace and happiness universally prevails—but a brace of pistols hanging overhead and a long barreled rifle standing close by, at once dispels and in unmistakable plain language reminds us we are still in a land where the bowie knife and revolver speedily settles all disputes. Still, the elements of civilized society, law and order, are rapidly gaining ground with us. I may here add, that but one murder has been committed in this city within the last six weeks.

In regard to matters pertaining to myself, I can say that at no time since my arrival here, have prospects looked brighter than they do at present. I have interests in several quartz leads, am a shareholder in the "Yusque River Mining Co.," a strong Joint Stock concern, just organized here; of which W. N. Byers, editor of the News, and other prominent citizens are stockholders.

One lead claim on the Buttail, the company of which I am a member have sunk a shaft 85 feet and have just struck "pyrites" which will probably pay handsomely.

I may possibly get "home" next fall, if nothing in the meantime occurs to prevent. Remember me to all friends. Love to yourself and all the rest of the girls—in particular.

JOHN C. RYAN.

SCHOOLS.—The schools in the second ward began on Monday last, and are now fully under way. The grammar department opens with a larger number of scholars than ever before, and the other departments have their usual complement.

The two lower rooms were re-seated, during last vacation, and so improved as to accommodate both teachers and scholars far better than formerly.

Now another improvement is very much desired; we want parents and friends to add to the interest of the school by their frequent visits, and unless they are willing to contribute freely in this way, teachers and scholars have little encouragement outside of the school-room; and it is true that encouragement and sympathy are as indispensable to great success there as elsewhere.

Our City Schools.—The Spring term of our schools commenced on Monday last, under very favorable auspices. The teachers are well fitted to their task; the school houses are in good condition, and all things combine to the best interest of the scholars.

Something ought to be done by our business men toward repairing the plank road between Menasha and this place. It would cost but a trifle to make a good road to the former place, and the business resulting therefrom, would pay large interest. Who speaks first?

SUNDAY DEATH.—A boy nine years of age was taken sick in Oakshole Wednesday last, and expired in a few minutes. He was brought to this place the evening of the same day.—We are informed that his parents were with him, and that he had relatives in this county.

College Avenue, from Oneida to Morrison st., nearly, is in a horrible dirty condition. We notice that some of the business men in that locality are having the fifth scraped into heaps. Their example should be imitated by everyone on the infected district. Pile it up and then haul it upon your gardens. It will richly pay.

The late rains started things vigorously in the woods. The trees are beginning to blossom; the grass, which has so long been hidden beneath its snowy bed, is gradually making its appearance; the roads are rapidly "drying up," and ere long the noblemen of the soil will again take their sceptre of power.

Cattle and horse owners must be careful how they allow them to run our streets. There is an ordinance on our city records forbidding any animals but cows roaming at large, and they are required to be kept shut up at night or go to Pound. Look out then, and don't lay yourselves liable to the penalties of offended Law!

The Sunday School concert at the M. E. Church Sunday evening last, was largely attended, but fell far short of some we have attended there. The piece entitled "My sister and I" was good, and the manner in which the young vocalists performed their parts, elicited many words of praise from the audience.
